

This is my sister, and she has Alzheimer's disease.

Patty Snyder was looking for a memory care facility for her sister, Frances, when she found **University Nursing Center**. It was very important to Patty that Frances have daily activities provided for her.

"The activities are great and keep her busy. Frances is so happy to be able to attend the church services and Bible study. I like that she is able to go outside, play bingo and go on outings. My favorite part of University Nursing Center is the staff that comes

in contact with Frances. They treat her so well and with respect. They are so compassionate with the residents.

Auguste's Cottage is so homey, very clean and it feels like a family. I feel like this is the place that my sister is meant to be and I'm so relieved she is here. I don't worry or have concern about Frances' care. She is happy and we are both content that she is here."

Patty Snyder, Sister of Resident Frances Newton

Our Auguste's Cottage is a structured, research-based program utilizing the social model philosophy of care. We care for our residents by making them feel at home, rather than in an institutional setting. Excellent healthcare is always provided, but quality of life is our primary focus. Stimulating daily activities are offered and encouraged to sustain independence and promote a healthy spirit.
