Canterbury Nursing and Rehabilitation Center Earns Deficiency-Free Rating

Fort Wayne, IN — Canterbury Nursing and Rehabilitation Center has received a deficiency-free annual state inspection, a stellar achievement seldom accomplished by senior healthcare communities.

Operated by American Senior Communities at 2827 Northgate Blvd in Fort Wayne, the community serves seniors and others who need rehabilitation, skilled nursing, long-term care, hospice and respite. The Indiana State Board of Health inspects such communities to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of the community.

A perfect, deficiency-free rating is the best state survey score a senior healthcare community can receive.

Compassion, Accountability, Relationships and Excellence are the core values for American Senior Communities. “These words not only form the acronym CARE, they are guiding principles that lead us every day as we serve a very special generation,” said ASC’s Chief Operating Officer, David Stordy.

“We are so proud of and grateful to our team at Canterbury Nursing and Rehabilitation Center for living out these values in an exceptional way,” Stordy said. “Without this team’s high level of dedication and commitment, a deficiency-free survey would not be possible.”
