### **Summit City Nursing and Rehabilitation Earns Deficiency-Free Rating**

**Fort Wayne, IN** — Summit City Nursing and Rehabilitation has received a deficiency-free annual state inspection, a stellar achievement seldom accomplished by senior healthcare communities.

Operated by American Senior Communities at 2940 N. Clinton Street in Fort Wayne, the community serves seniors and others who need rehabilitation, skilled nursing, long-term care, hospice, respite and advanced pulmonary care. The Indiana State Board of Health inspects such communities to assess compliance with state standards of care, such as adequacy of staffing, quality of care and cleanliness of the community.

A perfect, deficiency-free rating is the best state survey score a senior healthcare community can receive.

Compassion, Accountability, Relationships and Excellence are the core values for American Senior Communities. “These words not only form the acronym CARE, they are guiding principles that lead us every day as we serve a very special generation,” said ASC’s Chief Operating Officer, David Stordy.

“We are so proud of and grateful to our team at Summit City Nursing and Rehabilitation for living out these values in an exceptional way,” Stordy said. “Without this team’s high level of dedication and commitment, a deficiency-free survey would not be possible.”

For more information about Summit City Nursing and Rehabilitation, call the community at (260) 484-0602 or visit the website at [www.ASCCare.com/SCN](http://www.ASCCare.com/SCN)!
